

Professional Services Schedule and OASIS

Contracts to Meet Your Professional Services Requirements

GSA's Professional Services Category offers two contracts that can meet any simple or complex professional services requirement - the Professional Services Schedule and One Acquisition Solutions for Integrated Services (OASIS).

Professional Services Schedule

The **Professional Services Schedule** (PSS) offers customers the ability to meet acquisition challenges while achieving their missions. This Multiple Award Schedule (MAS) provides a streamlined, effective commercial contracting vehicle for both customers and vendors using **FAR 8.405** ordering procedures. PSS gives federal agencies the ability to use a single long-term, government-wide contract to procure simple to complex fixed-price, time and materials, or labor-hour professional services. All PSS Contracts are awarded with a 5-year base period and three 5-year option periods. Task orders must be solicited and awarded prior to the PSS contract expiring and may extend up to 5 years after the PSS contract expires. The core disciplines of PSS contracts include:

- Mission-oriented business integrated services
- Financial and business solutions
- Environmental services
- Language services
- Logistics services
- Advertising and integrated marketing services
- Professional engineering services

OASIS and OASIS Small Business

OASIS and OASIS Small Business (SB) are government-wide multiple-award, indefinite-delivery/indefinite-quantity (IDIQ) contracts that provide flexible and innovative solutions for complex professional services using **FAR 16.505** ordering procedures. Awarded in 2014, OASIS has a five-year ordering period with an option for an additional five-year period (2024). Task orders must be solicited and awarded prior to the OASIS ordering period expiring and may extend up to 5 years after the OASIS ordering period expires. By expanding contracting alternatives, OASIS provides agencies with a total professional services solution that allows for commercial and noncommercial requirements and all contract types at the task-order level.

The core disciplines of OASIS and OASIS SB contracts include:

- Program management services
- Management consulting services
- Logistics services
- Engineering services
- Scientific services
- Financial services

Both PSS and OASIS add value to the acquisition process by saving agencies time and money. These programs reduce the lead time and administrative efforts commonly associated with acquiring professional services while maintaining regulatory compliance.

Professional Services Schedule (PSS)

OASIS & OASIS SB

Small Business	<ul style="list-style-type: none"> Thousands of small business contractors are available on PSS Task orders may be set-aside for competition to any small business type listed in FAR 19.000(a)(3) Schedule contractors may form Contractor Team Arrangements (CTAs) Subcontracting permitted using Prime contractor's Authorized Schedule Price List Limitations on subcontracting applies to each order set-aside for small business competition Sole-source direct order awards for socio-economic purposes not permissible under PSS 	<ul style="list-style-type: none"> OASIS SB contains a select number of small business contractors suitable for requirements that will be set aside Contractors may team via subcontracting Limitations on subcontracting is managed at the contract level by default, but may be required in the order at the ordering agency's discretion OASIS SB has multiple NAICS code pools to ensure proper small business use and agency award credit OASIS SB allows for competitive socio-economic set-asides and socio-economic direct awards as authorized by law including 8(a), HUBZone, SDVOSB, WOSB, and EDWOSB.
